# CPM9

## 9<sup>th</sup> International Workshop

Characterization of Porous Materials:  
From Ångströms to Millimeters

May 19 - 22, 2024 | Delray Beach, FL-USA

**Abstract Submission**  
**Early Registration**

**Ends November 15, 2023**

**Ends February 16, 2024**

**CPM-9** will focus on various aspects of porous materials characterization, including experimental, theoretical, and molecular simulation methods to study structural, mechanical, adsorption, wetting, and transport properties of various classes of porous solids.

The range of practical applications includes porous nanostructures, biomaterials, adsorbents, catalysts, membranes, batteries, pharmaceuticals, filters, fibrous materials, textiles, paper, soil, coal, shale and other geosorbents.

Workshop Chair: **Professor Alexander V. Neimark**

Rutgers University

Workshop Vice-Chair: **Professor Matthias Thommes**  
Friedrich-Alexander-University Erlangen-Nürnberg
